1-Bedroom Apartment for Sale in St Julian's

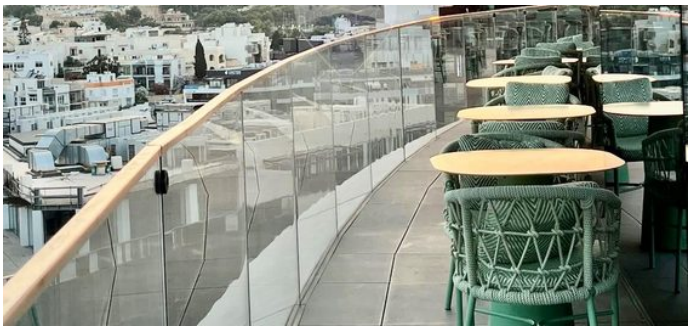

St Julian's, Malta

BEDROOMS	BATHROOMS	INTERNAL AREA	TYPE
1	1	60 m²	Apartment

Malta's tallest building, the Mercury Tower, offers a rare opportunity to own a piece of architectural history in the heart of St. Julian's. As one of the final projects personally signed off by the legendary architect Dame Zaha Hadid, these residences combine iconic design with a prime location that positions them as a sound rental investment in Malta's thriving tourism market.

he Mercury Tower is more than just a building; it's a sculptural statement on Malta's skyline. Completed in 2023, it stands at 122 meters tall with 32 floors, making it the island's tallest structure . Its most distinctive feature is a dramatic 12-degree twist between the 10th and 12th floors, a design element that optimizes views for the upper residential floors and creates a sense of dynamic movement . The project also sensitively integrates the facade of the historic Mercury House, a Grade II listed building from 1903, which has been restored to form the grand entrance to the complex .
